	Invoice Currency, to home-, Invoice- or Payment Currency	0..1	Format: SDDb::Integer6Dec4 Definition: SG7 First occurrence: In some countries it is a requirement that , for invoicing in foreign currency, the invoice taxable and tax (e.g VAT) amounts must also be expressed in home currency. Relating this to the CUX segment, authorities would require the invoicing currency and home currency to be shown together with the rate of exchange(element 5402) used. Some companies require the currency of the invoice to be present, If, then, only one currency applies to the invoice it may expressed as CUX+2:SEK:4+3:SEK:4:1' . Calculation rule: Reference Currency multiplied by rate = Target Currency If more currencies have to be transmitted, another SG7 - CUX, DTM has to be
